

Progressing to Full Registration

Support Team

What do they do?

Support for schools and individuals can be tailored to specific needs.

Options include:

- workshops for applicants, practice-focused mentor teachers, and school leaders, to develop the underlying skills and understandings required to undertake progressing to full registration processes
- support for provisionally registered teachers to develop a portfolio of evidence, in small groups or individually
- panel support for school leaders and practice-focused mentor teachers.

Who are they?

The progressing to full registration support team are independent contractors who are trained to support aspects of the progressing to full registration process for teachers and school leaders in Tasmania. All have served as leaders in the Tasmanian education sector.

What does it cost?

Costs are aligned to Tasmanian standard relief teacher rates and Tasmanian Public Service travel costs.

All costs must be covered by the school and/or individual.

Availability

Support from members of the team is available to all Tasmanian schools and colleges.
